Or Not!**

For More Info Contact:  
Village of Spring Valley @ 352-1100 ext. 100

They are tougher than you think: Bedbugs can go a year without feeding if necessary, though they like to feed every few days or so. They can survive in temperatures between 14 and 113 degrees Fahrenheit. [myamazingfactsblog.com](http://myamazingfactsblog.com)

**Incredible!**
